EDUCATION

Business Management and Economics

University of Roehampton

1st class honours   2019-2022

- Demonstrated resilience and adaptability during the COVID-19 pandemic by excelling academically while primarily studying from home through self-directed learning.
- Acquired knowledge and hands-on experience in Agile methodology, a highly valuable skill in the technology industry.

INTERESTS

football, gaming, running, anime

PROFILE

I am an ambitious and dedicated person with a strong desire to learn and grow. I excel at collaborating with others, and have a proven track record of effectively communicating with team members. Having gone to a coding bootcamp and being exposed to different learning styles and personality types it has encouraged me to uphold an inclusive work environment.

EXPERIENCE

Full Stack Development

School of Code   09/2022 -01/2023

- Completed an intensive 16-week bootcamp in coding
- Proficient in front-end and back-end development
- Experience working in an agile environment
- Improved confidence and pair programming skills through regular collaboration with new partners
- Understood the importance of thorough planning and problem-solving techniques
- Developed skills in breaking down complex problems into smaller, manageable tasks.

PROJECTS

SpoilerAlert

Solving the issue of food wastage

Description: A mobile app that lets the user input foods manually or scan their receipts so they can track when their items are about to expire.

- 4 week project for a mobile app: food expiration tracker
- Built with React Native (not covered in course, a good learning experience)
- Working in sprints to fulfil agile methodology
- Utilizes OCR technology via Google Vision API for scanning receipts
- Database implemented with PostgreSQL
- Authentication using Firebase

Recap

Bootcamper revision hub

Description: A blogpost site where teachers and boot-campers can interact by posting a summary of what has been taught each day.

- One week project with the goal to help a boot camper
- Built with React and Node.js/ PostgreSQL
- Participated in daily stand-up meetings, sprint planning sessions, and retrospectives.
- Utilised Kanban boards to track progress and also improve time management by giving time estimates to tickets.

PROFESSIONAL EXPERIENCE

Sitel   06/2022-08/2022

NHS track and trace

- Improved my communication as I had to talk to multiple people everyday
- Learnt how to be more emotionally aware of others as I had to constantly talk to people how were having a hard time.

Centre Circle   11/2019-05/2021

Steward

- Became a better team-worker due to working with completely new co-workers every week
- Learnt importance of safety and safeguarding in the workplace
